

TECHNICAL TRAINING MODULE FOR GALLEY / STEWARD DEPARTMENT

Ship's Takeover • RSI • Operational Readiness

DISCLAIMER

© 2026 TECHNICAL TRAINING MODULE FOR GALLEY / STEWARD DEPARTMENT - This document is for official training purposes only. All procedures must align with the current Safety Management (SMS) Manuals

AGENDA & OBJECTIVES

I

Ship's Takeover

Handover protocols and initial galley assessment standards.

II

RightShip Inspection (RSI) & RISQ 3.2

Critical compliance updates and technical inspection requirements.

III

Galley Readiness

Sanitation, inventory management, and technical hygiene rules.

IV

Key to Success

Best practices for maintaining high safety and audit scores.

SECTION I

Ship's Takeover

- The foundation of a successful voyage
- Initial assessment and reporting

DISCLAIMER

DEPARTMENT - This document is for official training purposes only. All
procedures must align with the current Safety Management (SMS) Manuals

TAKEOVER PROCEDURES AND DOCUMENTATION

Inventory Verification

Complete physical count of all provisions, dry stores, and bonded items. Reconciliation with current manifest to ensure transparency during handover.

Condition Reporting

Detailed assessment of galley machinery, cold storage temperatures, and ventilation systems. Documentation of existing maintenance issues is mandatory.

Safety Equipment

Immediate verification of fire suppressors, emergency shut-offs, and PPE availability.

Take_over_checklist.png - Official verification log

SPECIFIC ROLES: CHIEF COOK

Leadership & Food Safety

Direct oversight of the culinary team to ensure adherence to strict maritime hygiene standards and food safety management systems.

Menu Planning & Budget

Executing efficient menu rotation and budget control protocols during the critical technical handover and operational ramp-up phase.

Storage Sanitation Control

Strict supervision of galley cleanliness and food storage environments, ensuring temperature logs and sanitation schedules are met.

SPECIFIC ROLES: MESSMAN

Sanitation

Maintaining hygiene excellence in mess halls, dining areas, and associated common spaces.

Provisioning

Direct assistance in receiving, categorizing, and systematic storage of ship provisions.

Waste Management

Strict compliance with maritime disposal protocols and environmental safety standards.

SECTION II

RightShip Inspection (RSI)

Understanding the audit process

Compliance with international
maritime standards

RISQ 3.2 UPDATE: WHAT'S NEW?

Latest Updates

Full integration of SIRE 2.0 digital inspection protocols for the galley.

Crew Welfare

Elevated standards for nutrition, drinking water quality, and living hygiene.

Documentation

Requirement for verifiable logs on temperature control and pest management.

Previous Version	RISQ 3.2 Changes
General hygiene inspection.	Specific evidence-based sanitation protocols required.
Annual medical checks.	Enhanced focus on daily health surveillance for food handlers.
Storage height guidelines.	Strict adherence to the "12-inch Rule" for floor clearance.
Basic log keeping.	Digital, real-time tracking of cold chain temperatures.
Self-assessment.	Third-party verifiable environmental audit standards.

MUST-KNOW:
All food storage surfaces must be non-porous and easy to sanitize. No wood allowed.

RSI CHECKLIST: COMMON FINDINGS

Personal Protective Equipment (PPE)

Ensure strict adherence to PPE usage protocols during all galley operations. Non-compliance is a high-frequency RSI finding.

Temperature Logging Accuracy

Logs must be real-time and precise. **Verification failure** in temperature records remains a critical risk area.

Screens & Grease Filters

Routine maintenance of fly screens and grease filters. Accumulation or damage leads to immediate sanitation flags.

GALLEY TAKEOVER CHECKLIST (CHIEF COOK) (Sample Only)						
ITEM	DESCRIPTION	OPERATIONAL YES / NO	NOT OPERATIONAL (REASON)	Quantity	UNIT	REMARKS
1	OVEN / PLATES	✓ ✗				
2	COMMINUTER	✓ ✗				
3	REFRIGERATORS	✓ ✗				
4	ELECTRIC MIXER	✓ ✗				
5	DRENAGE	✓ ✗				
6	GALLEY SINK	✓ ✗				
7	PANTRY SINK	✓ ✗				
8	MEAT GRINDER	✓ ✗				
9	MEAT SLICER	✓ ✗				
10	EXHAUST FAN	✓ ✗				
11	FIXED CO2	✓ ✗				
12	FIRE BLANKET	✓ ✗				
13	PORTABLE CO2	✓ ✗				
14	FIRE ALARM SYSTEM	✓ ✗				
15	FIRST AID KIT	✓ ✗				
16	COLOR CODED CHOPPING BOARDS	✓ ✗				
17	COLOR CODED KNIFE	✓ ✗				
18	REEFER	✓ ✗				
19	DRY STORE	✓ ✗				
20	MICROWAVE OVENS	✓ ✗				
21	KETTLE	✓ ✗				
22	COFFEE MAKER	✓ ✗				
23	BLENDER	✓ ✗				
24	DISH WASHING	✓ ✗

SECTION III

Galley Readiness

Operational excellence in the kitchen

Adhering to the "Always Ready" mindset

THE 12-INCH RULE FOR STORAGE

Technical Mandate

Store all items at least 12 inches (30 cm) away from bulkheads (walls) to maintain a clear gap.

Ventilation & Pest Control

The air gap ensures adequate ventilation and prevents the creation of dead zones where pests can harbor undetected.

Cleaning Accessibility

A 12-inch clearance allows crew members to effectively sanitize the deck-to-bulkhead

Fig 1.1: Technical illustration of required bulkhead clearance.

HEALTH AND SANITATION CHECKLIST

Cross-contamination prevention protocols

Defrosting procedures and labeling

Potable water testing and reporting

Area / Task	Daily Frequency	Weekly Deep Clean
Galley Prep Surfaces	Every 4 hours	Steam sanitation
Cold Storage Units	Temp check (3x)	Full shelf disinfection
Cooking Equipment	Post-service	Degreasing overhaul
Floors & Drains	End of shift	Sanitizer flush
Water Bunkering Lines	Visual Inspection	Chemical Analysis

Section IV

KEY TO SUCCESS

Sustainability and Teamwork

Maintaining Standards Over Time

Essential Traits for Galley Staff

COMMUNICATION

Cook & Messman Synergy

Fostering open dialogue to ensure seamless transitions between food preparation and service areas.

MAINTENANCE

Proactive Care

Routine inspection and immediate reporting of galley equipment to ensure longevity and operational safety.

DEVELOPMENT

Continuous Improvement

Implementation of regular feedback loops to refine

TEAM SUCCESS COMPONENTS

- Communication (30%)
- Discipline (25%)
- Skill (20%)
- Hygiene (25%)

SUMMARY & KEY TAKEAWAYS

Conclusion

In summary, the research highlights the critical role of renewable energy in mitigating climate change, offering sustainable solutions for energy needs. By transitioning towards renewable sources, society can reduce carbon emissions, enhance energy security, and foster economic growth while safeguarding the environment for future generations.

Initial Takeover

Successful vessel handover is the foundation of operational excellence. It establishes professional standards and ensures full contract compliance from Day 1.

A yellow icon of a clipboard with a checklist, representing RSI Compliance.

RSI Compliance

RightShip Inspection (RSI) standards are non-negotiable. Every crew member is responsible for maintaining audit-ready conditions at all times.

A horizontal bar chart with three categories (Category 1, Category 2, Category 3) and five data series (0 to 5). Category 1 has bars for 1, 2, 3, 4, 5. Category 2 has bars for 1, 2, 3, 4, 5. Category 3 has bars for 1, 2, 3, 4, 5.

A donut chart with a legend showing three categories: 1st Qtr (blue), 2nd Qtr (green), and 3rd Qtr (red). The chart shows a distribution across the three quarters.

Daily Standards

Strict adherence to the **12-inch rule** and daily sanitation protocols ensures food safety and prevents technical deficiencies in the galley.

THANK YOU

TECHNICAL TRAINING MODULE: GALLEY & STEWARD DEPARTMENT

THANK YOU

For your commitment to safety and quality excellence.
